

# Quarterly Morbidity Report

by Jeffrey Engel, MD North Carolina State Health Director  
WCP Magazine Public Health Editor

## Wake County Morbidity Table

(Preliminary data, as of 11/16/2009)

The Morbidity Table includes the number of reportable diseases and conditions reported to the Wake County Department of Health and Human Services by Physicians and laboratory directors as mandated by NC Law. The list of reportable diseases is not comprehensive as rare diseases with zero case reports (e.g. CJD, Leprosy) are not shown.

For a complete list of reportable conditions see: ([http://www.epi.state.nc.us/epi/gcdc/manual/reportable\\_diseases.html](http://www.epi.state.nc.us/epi/gcdc/manual/reportable_diseases.html))

*Notes: No value in a cell means 0 cases reported.*

*Previous quarter numbers may change as reports are verified.*

*Surveillance is based on the date of the report, not the date of the occurrence.*

Condition	3rd Qtr 2009	YTD 2009 (Q3)	YTD 2008 (Q3)
Campylobacter	7	27	30
Creutzfeldt Jakob Disease	-	1	-
Chlamydia	751	2,586	2,704
Cryptosporidiosis	1	6	1
E. coli, Shiga toxin	1	8	10
Ehrlichiosis, Granulocytic	-	1	-
Ehrlichiosis, Monocytic	1	3	4
Foodborne disease – other	-	12	-
Gonorrhea	206	751	913
Haemophilus influenzae, invasive	3	6	6
Hepatitis A	1	3	15
Hepatitis B, acute	3	7	1
Hepatitis B, carrier	35	87	34
HIV/AIDS	43	137	207
Legionellosis	-	2	2
Listeriosis	1	1	2
Lyme disease	-	6	3
Meningitis, pneumococcal	-	1	-
Mumps	-	1	-
Novel Influenza A	16	27	-
Pertussis	1	12	1
RMSF	1	19	21
Salmonellosis	28	80	71
Shigellosis	1	13	10
Strep, Group A invasive	2	5	8
Syphilis, Early	30	80	28
Tuberculosis	9	17	29
Typhoid, Acute	1	1	1

Based on feedback from users, we have made a change this year in how we present HIV and AIDS data by county. HIV and AIDS cases that are diagnosed/reported in prisons (state, federal) are excluded from individual county totals in our published reports. We calculated this Wake Coun-

ty report using that criteria so the totals match Wake County totals in our published reports.

The Morbidity Table is offered by the Public Health Committee of the Wake County Medical Society.
