Project Access is a program that provides access to specialty care for the uninsured in Wake County. Since its inception in 2000, over 11,500 patients have been served, over \$64 million in care has been donated, and \$561,319.00 in pharmaceuticals has been provided. The program is administered by the CapitalCare Collaborative, but is made possible by the generosity of specialty providers, hospitals and contributors.

Through the generosity of Wake County providers and hospitals, Project Access offers the following services to eligible patients:

- Lab and radiology services donated by providers and hospitals
- Assistance with some medications
- Hospitalization donated by providers and hospitals
- Specialty care donated by providers
